What will be covered..

- The two approaches to parenting.
- How to discipline without arguing, yelling or smacking
- How to handle the 6 kinds of testing and manipulation.
- 7 tactics for encouraging good behaviour.
- How to control obnoxious behaviour.
- How to show empathy while developing emotional intelligence in your child.
- How to strengthen the relationship with your child.

What people are saying...

- An end to the yelling and arguing!
- It saved our lives
- Simple, sane, effective
- What a relief to come across a program that preserves the dignity of the child, maintains the self control of both the parent and the child and is actually easy to remember at those times when memory is the first thing to go
- I realised quickly that 1-2-3 Magic can be a magnificent preventative measure that any parent can use to avoid raising a child, who later on down the line needs excessive discipline or grows out of control.

About the presenter - Brad Williams

Brads presentations are both informative and entertaining. His approachable and humorous style makes the topic of disciplining children interesting. With a background in child and adolescent mental health services before starting in private practice, his practical 'real world' approach has course participants feeling more confident and flexible when it comes to discipline and getting the best out of kids.

As a father of two young boys, he is only too aware of the challenges involved.

He has a great affinity with rural life, having grown up on dairy and beef farm's and in his travels he has worked in mining and as a lobster fisherman.
