Dear Sir/Madam

BOIL WATER ALERT REMINDER FOR LADY BARRON

TasWater would like to advise customers in Lady Barron, that a boil water alert remains in place until further notice due to ongoing water quality issues.

PLEASE NOTE THERE IS NO CHANGE TO YOUR WATER SUPPLY, the alert has been in place for a period of time as communicated previously.

We recognise information relating to water quality alerts can evolve over time so we continue to work closely with the Department of Health and Human Services to present our customers with the most up to date information available. As part of this process reminder letters are sent to the recorded postal address and the property owner's address on a quarterly basis. This means customers that own multiple properties may receive multiple letters. Information on the alert can also be found on our quarterly accounts, Land Information Certificates and our website.

We remind consumers in Lady Barron, they should continue to boil their water until further notice. A map of the affected area is attached.

This advice has been issued as the current water supply has no treatment to control microbial contamination.
