10 July 2017

Flinders Island Aboriginal Association Inc.
PO BOX 20
WHITEMARK TAS 7255

Dear Sir/Madam

Notification of water supply interruption – Whitemark.

TasWater will be working on the water infrastructure in Whitemark on **Wednesday, 19 July 2017** between **9.00am** and **4.00pm**.

This work will mean TasWater customers in Whitemark will experience an interruption to their water supply while this work is being done. This will affect all of Whitemark and Thule Road. The areas of Bluff and the Airport will not be affected.

During this time you may experience an interruption to your water supply. We recommend you store sufficient quantities of water for use during this period.

If you have any special requirements that may be affected by the interruption please contact TasWater on 13 6992.

After this water supply disruption, you may notice some temporary discolouration of your water. If you experience discolouration or "milky water", please run an outside tap for a few minutes until the water runs clear. Any ongoing water quality issues should be reported to TasWater on 13 6992.

This work is part of TasWater's commitment to investing in new and improved water infrastructure projects across Tasmania. These projects will provide improved public health and environmental compliance, and ensure our assets deliver reliable service for future generations.

TasWater apologises for any inconvenience this may cause and appreciates your patience while we undertake this very important work.

More information about the project itself is available from Community Engagement Officer John J Murray on (03) 6422 5422 or by emailing john.j.murray@taswater.com.au

Yours sincerely,

A handwritten signature in black ink, appearing to read "John J Murray".
